

# PHARMACY TECHNICIAN PROGRAM

This 10-week review course is designed to prepare participants to assist and support licensed pharmacists in providing health care and medications to patients. Participants will obtain a broad knowledge of pharmacy practice and be skilled in the techniques required to order, stock, package, prepare, and dispense medications under the supervision of a licensed pharmacist. Upon completion of the curriculum, students will be eligible to take the National Pharmacy Technician Certification Examination.

SPACE IS LIMITED
