

VCU School of Pharmacy
11th Annual Pharmaceutical Sciences
Research and Career Day
&
50th Anniversary Graduate Alumni Reunion
October 16-17, 2008

Looking Forward at *50*

The VCU School of Pharmacy's Research and Career Day and Graduate Alumni Reunion *showcases* our research and graduate program in the pharmaceutical sciences. It gives postdoctoral fellows, graduate and Pharm.D. students an opportunity to *develop the skills and contacts* needed to find jobs in academia, the pharmaceutical industry and government. *Classes* on career development, interviewing and writing a successful CV, a *poster competition* and *meetings* with government and industry scientists are available. Also, 1992 Pharm.D. alumna, Dr. **Kellie S. Reynolds**, of the U.S. Food and Drug Administration will speak on "*Trends and Innovations in Drug Development.*"

This year, we are proud to celebrate the 50th Anniversary Graduate Alumni Reunion! Our alumni have the ideal background to *contribute to the professional development* of current graduate students. Alumni are encouraged to get to know our students in individual meetings, to participate in the poster session and to reunite with former classmates. *Special guests* at an evening reception will include current and emeritus faculty, as well as a graduate of the school's first Ph.D. program.
